Saturday 8th July 12 to 4.30  
Fun Day at Woodcroft

Saturday 9th September 7pm  
to 11pm Pig Roast

The Friends of Woodcroft

## What is Woodcroft Wildspace?

Woodcroft Wildspace is a 5 acre site close to Winchmore Hill Green. It is owned by Enfield Council.

Woodcroft Wildspace is now a Limited Company and has signed a Licence from Enfield Council enabling us to continue conservation work on part of the site. We need regular volunteers to help do the work to put this conservation area in place.

The overall objective is to turn it into an educational Wildspace promoting a better understanding of our environment for generations to come.

We welcome the involvement of expert advice to advise on suitable shrubs and trees - as well as insect, bird and animal environments.

Our next objectives are :-

- Finalise the 125 year Lease for the site from Enfield Council
- to become a registered charity

We have support from a substantial portion of the community which we aim to further extend throughout Enfield. Please come and join us.

Further details [www.woodcroft.org.uk](http://www.woodcroft.org.uk)

We are continuing to develop the Northern end of the site into a managed educational Wildspace with the successful support of tree sponsors — thank-you all.

During the year we plan to develop the whole site to look like the above plan .

Come and use your expertise to help us fulfil this vision

**Do you think it's important to protect the environment?**

**Are you interested in nature conservation?**

**Do you care about keeping green spaces in the local area?**

Woodcroft Wildspace is an exciting opportunity to provide a haven for wildlife right in the middle of Enfield.

This very special green space was due to be sold off for a housing complex, but amazingly Enfield residents now have the opportunity to keep this space green and open to the public.

We all have to act NOW if we want the site to stay green, and fend off any plans to sell off the site to a housing developer.

The Friends of Woodcroft have achieved a lot already, but your support is needed now to demonstrate public support for the Wildspace, and help in raising the money needed to create Woodcroft Wildspace.
